Learn more

The formula for God Almighty's Grand Unified Theorem (GAGUT) is  $G_{ij,j} = 0$ .

### Explanation

GAGUT unifies all of mathematics and knowledge of provable truth into one equation. The formula states that all theorems and equations can be represented by one invariant  $G_i$ , which has orthogonal components  $G_{ij}$ , and a divergence of  $G_{ij,j} = 0$ .

### Significance

GAGUT's proof of the Riemann Hypothesis, a Clay Mathematics Millennium Problem, is considered to be another proof of its credibility.

### Proponent

Professor Gabriel A. Oyibo proposed GAGUT to unify all known forces in nature and other possibly unknown force fields. Oyibo received his Ph.D. in Aeronautics and Mathematics from Rensselaer Polytechnic Institute.

### Controversy

GAGUT remains controversial.

Generative AI is experimental.
