The formula for the GOD Almighty's Grand Unified Theorem (GAGUT) is $G_{ij,j} = 0$. This formula unifies all of mathematics into one equation, and it also proved the Riemann Hypothesis, a Clay Mathematics Millennium Problem.

The GAGUT formula proves that all theorems and equations can be represented by one invariant G_j , which has orthogonal components G_{ij} . The divergence of $G_{ij,j}$ is 0.

The GAGUT formula is part of a paper by Professor Gabriel A. Oyibo. The paper shows that the GAGUT formula is a fundamental tool for solving the Riemann Hypothesis.

GAGUT: The Theorem of Everything

Jun 18, 2020 – GAGUT has therefore unified all of mathematics into one equation $G_{ij,j}=0$ and so has already provided the solutions to all mathematics problems.
